June 2018

Dear Parents and Guardians,

This summer, the Point Pleasant Borough school district is implementing required assignments for all students enrolled in ANY high school math course for the 2018-19 school year. (The only science course that requires a summer assignment is AP Physics-C.) Assignments are organized by:

- 8th Grade Algebra 1
- Algebra 1
- Geometry
- Geometry Honors
- Algebra 2
- Algebra 2 Honors
- Transitional Algebra
- Discrete Math
- PreCalculus
- PreCalculus Honors
- Calculus
- AP Calculus

The summer assignments serve as preparation for each math course and will help prevent the loss of math proficiency that typically occurs over the summer months. The material in each packet is intended to be a review of previously learned skills necessary for success in each course, easing the transition from one math course to the next. There are numerous web-sites available to assist students in reviewing math ideas, including but not limited to: www.freemathhelp.com, www.khanacademy.org, www.math.com, www.mathportal.org and www.sosmath.com.

Students are required to complete the summer packets during the course of the summer and **bring the completed work to class on the first day of school**. The assignment will be graded as a quiz based on completion/effort. After review of the problems in class, an assessment will be given based on the information covered.

Thank you for your support with this endeavor. Feel free to contact me with any questions or concerns. Have an excellent summer!

Sincerely,

Jennifer Riback
Supervisor of Mathematics & Science
