\*Family and patient history are an important part of screening for cardiac conditions. If you choose not to complete this form, or are otherwise unable to provide complete or accurate answers regarding family or the child's own history, the cardiac screening of your child may not be as thorough as possible. Barnabas Health Outpatient Centers may or may not collect this form at the same time as performing tests today on your child. Even if this form is collected today, Barnabas Health Outpatient Centers shall not be responsible for reviewing the information that you choose to include on this form, but if you do complete this form and provide it to Barnabas Health Outpatients Center today, then the form, and the information you provide, may be shared by Barnabas Health with your child's pediatrician and a referring cardiologist if your child is found to have a cardiac condition which requires further evaluation. Whether or not you provide a completed form today to Barnabas Health, we encourage you to fill out this form as correctly and completely as possible, and discuss the contents of this form with your child's pediatrician, as an additional cardiac screening tool.
